Dr. Blount shares often, "We are interested in hearing what our community / stakeholders want to know about Clinton City Schools, because we are truly 'Preparing the Future, Together' and without input we cannot accomplish that mission."

We are sending out messages to the employees, and parents as way of advertisement and we are hoping for a large turnout. The community is extremely supportive of Clinton City Schools, and this is another opportunity for them to convene, show and share their commitment. We believe and desire to promote communication with our stakeholders (community) and schools. Awareness and information is only valuable if people hear and know it. This Town Hall Meeting will be a platform for gaining of awareness on both the stakeholders and Clinton City Schools.

We anticipate the Town Hall Meeting to last no more than an hour, however Clinton City Schools officials will be there to answer individual questions that stakeholders may have at the completion of the meeting. We will have introductions, presentation, and then panel discussion.
